Like my ladies trim
Smart
And not manly wire-tapped
And booby-trapped wet
Nurse grew inside

Grew wet dreams powder napalm
And what appears to be glowing
Is that curfew yet

The room's turning red into black
And not a chubby please thanks rim
And lick and suck with lick
Deep turning black mushroom totally
Bone worship that

Destroyed souls are summoned to my timeless prison of hate. It is a delight to feast upon their screaming souls. Visit again; hoping to hear from the eternally ancient grave? Watching mortals guarded by the old demons, one can never escape, my wrath, my guy or a couple, wants a 3-way. I travel through time and I just go for hot cool wizards you want to hang out? Servants summon the souls of those I'm really not looking forward to meeting. Definitely black arts, very attractive, fun and affectionate, and also enjoys cauldrons of gold. I have no expectations in the dark mountains where we can go "with the flow". Or hanging out in west holy wood stone runes of centuries they breed. I'm looking to get together with the mightiest. Am I alone in this cosmos of today or tonight? Lets have some fun in the bottomless lake where I am ruler. Fun & exciting never ending flings with those whose empire hath no limits .Ok girls I'm looking for many to service me!

Thirst for a planetary relationship that will evolve with wisdom and power for the Emperor. So often reflected in the TV, sports, and life. I am all-universal forces lay hid, shine and 150 lbs., professional, so bright, but yet I love my son, Disney. The toy heavens are lit by thrift stores, hiking, camping, movie stars secretes years of secrets.

“Skilled in the linguistic formulation of difficult theoretical concepts”. (FYI I did not sleep with this professor). I'm hidden I don't hear “beautiful brown eyes” “You're so hot...I just wanna do you” (fyi that line did not work. let's try to step up our game, ladies.) Displayed careful and acute capacity for lucid thinking and unusual sucker for cute, friendly, dimples, blushing, nervousness, confidence (but not cockiness), tall, short, medium, and of course, other. To be chosen to reign, a butch but straight reign. But I've crushed just about all other types and I wouldn't be surprised if that happens again. I can feel the sky. Feel my insects that just want to fill your lungs. Their reproduction seems so impressive with freakofnature4hottie tgirl shower. A hate drizzled into an edge this is my world. Wish me luck. Oh yeah, falling in with some abruptly charming people who are accursed upon the common man. To communicate honestly, but also shouldn't mind being chosen to disrupt harmony, with a little discretion now and then.

So if u like what u hear, hit me up.... a little about myself. I'm 5'5, green, dark, and I'm into ancient Latin. I can have fun and I can hang out ... Let me tell u blessed is the gf. I'm just looking for a world with plagues, blessed is this worldwide plagues of love. Comfortable sincere replies only, please no freakish long diatribes. Meeting in public places required until i feel that we both cherish and are longing to be dominated by the emptying world. I'm cool with casual lies mourning what we have never seen, but not encircled by bereaving. Craving a silly side and always out for blood... ... Yes, set in with despair to dig up my life's ambition, the hole of blood type coalesces. Smiles of cold shivers, stomach collecting the remains, the family's pale face, leaving a fold, hair white (but not a crease, all pasty), and thin (but not invisible). With only decline the crumbling barriers own-horn-tooting way. Two fingers hold a light. Nothing but most anxious saltwater expressions prowl around behold!

Why so many defenseless withered from a loved ones hands? In this life span there will be revenge, which only some may wish for, or worry about, through the many yards of bodies. My hands carries it's scent as our relationship develops. I'm of the soulless, the soul seeking, not super-femme. Once again, I herd young souls crossed off the list cry out. I am left to watch you, let me see you. Once as their protectors they too become the possessed. To shape in visions, the last black soul blinded eyes seconds from this world, and not seeing anyone seriously. Whence from dreams I wake seeking vengeance upon the night I once welcomed all forms of season killers with these hands, digging through to bodies willingly wanton thus reemerge. My hands carry the flames of longing scent of the death soulless and just wanna hanging out. I'm seeking same.

Start off as friends or more send pictures from beyond, single and feminine. Just some basics to get started with I'm interested in meeting new stylish people who go with the spirit to reveal all that is silent and who can just relax and go with the flow. U know what you want! And u know how to speak in tongues and fits! How about a quick Tahoe trip? Wanna read the Ancient's book of sorcery and ditch work for the day. Blasphemous-magician seeking hidden knowledge, easy going & drama free ancient lesbian, must be early 30's, intelligent, kind, with a great job.

Browsing bookstores, enjoying wine, dining in small, out-of-the way cafes, enjoying what's beyond death lies never gone anywhere with it, beyond a brief kiss (while drunk). Oddly enough, the casket lays open, and the corpse posting to the "seeking decapitated". The sorcerer took the skull; I wasn't particularly into to a insatiable San Francisco and still has a thirst for wealth and power. Wishing for the ancient plethora of activities available. Adjusting to hideous blasphemous acts, guess I'm not sure what I'm looking. The veil between the living and I hate labels, so the dead has torn to make way but I won't say femme or butch or any other classification.

And I stood there in awww. Wow. Hope to see you again in the wasteland because you looked exactly like a friend of mine. But then some mass death annihilating rage burning doubt you'll read this, but by the reaper's breath it's worth a shot. Warheads hit the Earth, eclipse manifesting terror to opening the gates, and smiled at me so brightly. Jet black demons in a subterranean gathering of my things and unfolding a divine vision came down to the locker room through nuclear detonation in 24 hour fitness. Apocalyptic curly brown hair no one can escape. A girl with gorgeous green eyes.

Basho's mild tourettes

One Grope For Basho

Spirit of the prize nine-inch clay

A wet opening

The youthful ejaculate of
Plastic frogs

Ghost of nine mountains
The sound of turbines
Blab of a wet mouths
The dirty floor
The condition of the body

A ghost ejaculates
Inside a Styrofoam cup

Frogs
Squat in silence
Wine stained silence

Into Li Po's open mouth
At the train station rest

Face up
in the river
Buddha on sodden legs
Glorified goodness toys
And blokes on camera

Replacing pirate black hotel
Human life round ass chocolate
Hottie maids smile robes in tatters

Outdoor Basho bondage in the snowy forest

This awesome lightening weight

Swear he looks exactly
Dreaming of weaks
Of slack damn-looking

And knives
Even tho i'm a chick

In trees mooring
Fish men float
Tugging nailed between
Trees bare and capitalizing

With great success
Clownishly birch
The moths honest
And a better dread comes
Soft boy hair everything

The names of all the gods all sound
Pervy dream white heresy
Soft so magnificently disguised

*Basho fixed his flaccid problem in the bedroom, but still
snowflakes fell*

The velvet lace cocks do not last

The morbid felt stars

Low prices and I have tasted tender sperm

Absorbs to the rooster

Which star rises around you

The useless justice of the felt

Unsound race of velvet

Unexpectedly softer semen is hoisted

Equipment of the jokeless

And a special hello to the one-hoofed Basho

Wardrobe wears very good shoes

Moving a wash upon my last clean dirty

Outta laws in my brain laced up

Iris show some secrets dirt

Broom I got me a tight body

Reconciled pasty gets penetrated

Deep and snakelike repeal gun things

My native country fucks for some nasty cash

She picked up a cute brunette with young radiances

Virgins at the beach at low tide

Good riddance boldly lolling atop popped

Silently bucking elegances
His legs spread nazis gold
Simply crying ass whore hobos and

Pony kissed and pushed

Tongues diving back and forth

Basho gives a skull fuck to the horny boss

Beat off stick

You'll have bookworms posing too

Mature and thrown into depression

Death or drink the lemonade

Mah jong hoes sucking back bejeweled sentences

Rounded boulders unable to pronounce the letter black

Gonna Booglarizee Your Basho baby

This tablet has never been known to sparkle
Like this but as it is true in nature
So it is that a new home
Needs milk so well flavored beauty

And youth to create that just so cardboard smile

But you are only a businessman and
Have no time for a long sexual stimulation
And we are getting plowed on paper
For our old sex narrations

Be easy in the beginning
The year is sixteen so so you
Want to pull
Want to be sure as we
Had to visit loads of temples
Before we found a realistic looking
Flaccid penis

Only to get destroyed by
Stunning schoolboys
Doing aesthetical liquidation

And the roads inland of
This territory is hard sienna
But I hold to it to remind
To be able

Able to remind me

Barely legal poets gangbang granny Basho

Inserts japanese
Smoke raised poultry
Paper passionate filth

Up off fossil lodge
While fireworks and
Crane heresy

You will tussle brier
Practically hanging and
Gently obliterate

A library corporal
A nymph sounds the alarmed

Busty bend dips
Quasi-diamond-dripped
Giving you that avalanche of sperm

Lewd Basho posing shaved in black leather jacket

A golden boy
Wearing just flickers of
Candlelight will fuck
Like a star

Make sure to take a good
Look as heaven declares civil
War suicide bombing
White horses enflamed

Cheerleader dark
Nights and day hot drippings

They do a nasty
Thing with their chicken legs
Still screaming
Bok! Bok! Bok!

Basho's mild tounettes

Burst of flavour in every bite
The pussy willows on a bun
A droplets cling to blonde
Welcome to boner heaven
Get thrusted by that passing train

Water meat
Real spices
Real good eats
Stiff authentic texan
Chipotle golden

Have you ever seen blue Basho get sucked in every hole

Play the second fiddle well dreams decay
Mom fucking with about grunted employees

I sat and drank while desire turned
Her type aerobic chicks nasty

Colour licking latex
Boot of Asia pale lemon

Then you choke
The smurf

On the back of his pristine
Black jacket

Basho be boss

C-cup your body to get younger
Still the pain it's
Dirt box and
Spunk on love
So leering a false note cast
Become crazed thunder tells
Waif the insane but
Declare it obscene
Angels fall black descent
You doggy drilling
Muse puritans clean so
Cut air brushed a
Shop pin-up how low
When you can preach

If Basho could talk he would definitely ask you to order that penis enhancement pack

Twisted mouths exhausted
Gush god riddance
Clunky dildo pillboxes
Maid blowing file gut
A flat and a magazine
Oozing insult demon
Sucks cock dreams
Dressed as a lamb
Plums rumble
Slobbers wide
We're so respectable

Mumbling limply
Bluebirds slurp four
Mutton clacking
Over cocks behind
Curtain in your streets
At dawn
Only smiling machines
